

Hurlstone Agricultural High School (Glenfield)

New Science, Technology, Engineering, Arts and Mathematics (STEAM) Building

Project Update

Since the last project update in October, the project team have progressed into the Detailed Design phase following endorsement of the Schematic Design ('The Hub') by the Project Reference Group (PRG).

Following the Pre Development Application (DA) process undertaken with Campbelltown City Council, the final DA submission was made to the Council incorporating the feedback received and the latest designs.

Key Tasks for the upcoming month

- Continue the Detailed Design work, including developing the furniture layout plans
- Commence the early engagement process with shortlisted Contractors for the demolition and construction works
- Consultation and workshops will continue to be held to further refine the design

'The Hub'

The new STEAM (Science, Technology, Engineering, Arts and Mathematics) focused building will feature:

- Additional science labs and modern Technological and Applied Studies (TAS), Visual Arts, Food & Textile facilities that are based on future focused learning models with collaborative and flexible learning spaces
- Proximity to existing science labs to maximise learning & teaching synergies

Public Consultation

Your input and feedback will be valuable in delivering an innovative facility. Information booths will continue to be held at the school and local shopping centres throughout the design process to provide the broader community the opportunity to view plans/designs and provide input.

More opportunities to provide input are detailed below.
